DETAILED ACTION

Election/Restrictions

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:
 - I. Claims 1-10, drawn to an optical communication unit including a driving section, a control section, and a switching section, classified in class 359, subclass 180.
 - II. Claims 11-23, drawn to an optical communication unit including a shielding section for preventing incidence of an optical signal from a light emitting section to a light receiving section, classified in class 359, subclass 152.

The inventions are distinct, each from the other because of the following reasons:

2. Inventions I and II are unrelated. Inventions are unrelated if it can be shown that they are not disclosed as capable of use together and they have different modes of operation, different functions, or different effects (MPEP § 806.04, MPEP § 808.01). In the instant case the different inventions are both generally directed to an optical communication unit, but the inventions have different functions and effects. Invention I includes a control section for changing a driving force for driving a light emitting section and a switching section which instructs the control section. Invention II does not include a driving force control section but has a shielding section for preventing incidence of an optical signal from a light emitting section to a light receiving section in the optical communication unit. Invention I does not include such a shielding section.
3. Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classification, restriction for examination purposes as indicated is proper.

Art Unit: 2633

4. Because these inventions are distinct for the reasons given above and the search required for Group I is not required for Group II, restriction for examination purposes as indicated is proper.

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Christina Y. Leung whose telephone number is 703-605-1186. The examiner can normally be reached on Monday to Friday, 6:30 to 3:00.

If attempts to reach the examiner by telephone are unsuccessful, the examiner's supervisor, Jason Chan can be reached on 703-305-4729. The fax phone number for the organization where this application or proceeding is assigned is 703-872-9314.

Any inquiry of a general nature or relating to the status of this application or proceeding should be directed to the receptionist whose telephone number is 703-305-4700.
